MEMORANDUM FOR: Col. Stanley Grogan

Attached is the transcript of the question and answer interview I gave the U.S. News and World Report's people with David Lawrence presiding. It was understood at the time that I was under no commitment to go ahead with the publication of any of this interview and in reading it over, even as I have corrected it, I do not think very much of it. Frankly, I am inclined to suggest to David Lawrence that we scrap the whole business at this time.

I would very much appreciate your views if you feel free to give them.
